[Need to Register for Guest Access?](#)

The screenshot shows a web browser window with a single tab titled "Sign On". The address bar contains the URL "https://portal1.guestwireless.ucf.edu:8445/portal/PortalSetup.action?portal=54b61b02-65d9-11e9-b33f-c6488a7b1836". The page content features the UCF Downtown Valencia College logo and a "Guest WiFi" header. Below this is a white sign-in box with the text "Welcome : Guest WiFi Portal". Inside the box, there is a heading "Sign On for Guest Access." followed by two input fields: "Username:" and "Password:". A blue "Sign On" button is positioned below the fields. At the bottom of the sign-in box, there is a blue link that reads "Need to Register for Guest Access?". The background of the page is a vibrant, high-resolution image of a city street scene with people walking and sitting at an outdoor cafe table. At the bottom of the browser window, the Windows taskbar is visible, showing icons for various applications like Edge, File Explorer, Mail, Chrome, Firefox, and others.

All fields are required on the registration form. If a user's SMS provider is not listed they can select an option, "X Carrier Not Listed Email Only" (not shown in this example) Grey areas on the form are blocking out my personal info used for my demo
