The income reported to IRS for tax purposes may be adjusted for financial aid purposes. In some instances, the amount of income listed on the tax return includes income that is not counted for financial aid purposes. In addition, child support paid by the parent is deducted from income because that money is not available for educational purposes or normal living expenses.

We are unable to continue processing your financial aid because your 2021-2022 FAFSA contains conflicting information. To resolve this discrepancy, your parent(s) must complete this worksheet.
