OFFICE OF THE PROVOST

A. Dale Whittaker
PROVOST AND EXECUTIVE VICE PRESIDENT

As provost and executive vice president for one of the nation’s largest public universities, A. Dale Whittaker provides academic leadership for the University of Central Florida’s colleges, campuses and research centers and institutes. Dr. Whittaker joined UCF in August 2014 after serving in faculty and leadership positions at Purdue and Texas A&M universities. Since arriving at UCF, he has led efforts to reorganize Academic Affairs, recruit and hire 200 new faculty members, launch an interdisciplinary Faculty Cluster Initiative to promote innovative scholarship across departments, develop a new campus in downtown Orlando in partnership with Valencia College, and embark on a 20-year strategic planning process. Under Dr. Whittaker’s tenure, UCF began its path to preeminence, designated an “emerging preeminent” institution by the state in 2016. In addition to being the state’s largest university, UCF also is its highest performing — landing in the top three in the state for the first four years that performance-based funding was awarded.

ACADEMIC AFFAIRS

Academic Affairs strives to create and support an environment that promotes UCF’s academic endeavors as a national higher education leader in teaching, research and service. Its leadership team is committed to providing the best undergraduate education in Florida, achieving international prominence in key graduate education and research programs, developing a global curriculum, promoting inclusiveness and diversity and helping UCF be America’s leading partnership university.

Reorganizing for Success

- In 2015, Academic Affairs was reorganized to streamline functional and operational areas to best serve the university community. This has included:
- Combining Faculty Excellence and UCF Global under one vice provost to provide international support to faculty development and internationalizing curricula.
 - Elevating the Office of Undergraduate Studies to a college and creating a Division of Teaching and Learning.
 - Joining the Office of Research and Commercialization and the College of Graduate Studies under new joint leadership to grow graduate enrollment and programs and double research funding by 2020.
 - Developing a new budget model and processes that decentralize funding decisions and improve transparency while realigning priorities with UCF’s strategic plan goals.

RECORD YEAR

In 2016, UCF set new institutional records for incoming freshman GPA and SAT scores, diversity and National Merit Scholars enrolled.

UCF also had the highest number of degrees at the lowest cost to produce.

AFFORDABILITY

Compared to the national average student debt, most UCF graduates face a far brighter future thanks to the university's strong value and programs focused on fiscal responsibility and financial freedom. About 44 percent of UCF students graduate with no debt — and for those who do, their average debt of \$22,000 is a quarter less than the national average.

ACCESS

With a focus on who we include rather than exclude, UCF believes that education is key to economic and social mobility. About one in four of our students are first generation, and nearly half are underrepresented. UCF is on its way to becoming a Hispanic-serving institution.

COACHE SURVEY

More than 600 faculty members responded to the 2015 Collaborative on Academic Careers in Higher Education (COACHE) survey, aimed at improving the UCF faculty experience, retention and recruitment. UCF's results were prioritized by a committee of faculty and administrators, which suggested strategies for areas of improvement beginning in 2016.

- 5 COACHE PRIORITY AREAS FOR IMPROVEMENT
- Nature of work, including research, service and teaching loads
 - Personal and family policies
 - Recognition and appreciation
 - Departmental leadership, quality and collegiality
 - Promotion policies

FACULTY CLUSTER INITIATIVE

Launched in 2014, the Faculty Cluster Initiative (FCI) leverages UCF's existing strengths and fosters the development of strong, interdisciplinary teams focused on solving today's toughest scientific and societal challenges through teaching and research.

In its inaugural year, FCI was allocated 33 new faculty positions in six select fields to advance UCF's unique areas of excellence and global impact.

33
2015-16 NEW CLUSTER POSITIONS

 - Sustainable Coastal Systems
- 2017
- Disability, Aging and Technology
 - Learning Sciences
 - Violence Against Women

RECRUITING TOP TALENT

UCF has increased its new faculty hires by nearly 50 percent since 2014, after previous years of limited hiring. Among its faculty hiring goals are to grow tenured and tenure-track positions and underrepresented faculty across all colleges.

In 2015, the Targeted Opportunity Program (TOP) replaced a centralized diversity hiring program, and is now focused on inclusive excellence, making UCF the institution of choice for academic partners and recruiting world-class researchers and scholars.

EXPANDING RESEARCH AND PARTNERSHIPS

UCF researchers drive intellectual capital and innovation to solve today’s most pressing problems, while promoting economic development in the region by aiding in the transfer of technology and other discoveries between university and industry to create next-generation ideas and products.

UCF increased its research funding 12 percent from 2014 to 2016. This year, researchers were awarded \$84 million from federal agencies, \$47.3 million from industry and other entities and \$14.5 million from state and local governments.

\$145.8MILLION

Applied Research Institute

Created in 2016, UCF’s Applied Research Institute assists in securing large collaborative research projects and enhancing the university’s interdisciplinary work and growing partnerships by aligning with Florida’s economic development needs. Additionally, it helps the university coordinate multidisciplinary responses to major projects and strengthen research across campus.

\$4.6MILLION
IN FUNDING SECURED

Post-Doctoral Appointees

UCF has invested more than \$2 million over the past year to recruit and hire post-doctoral scholars to enhance its academic mission and help UCF surpass the key preeminent metric of 200 post-doctoral appointees by 2020.

BRIDG

Anchored by one of the most advanced fabrication labs in the world, BRIDG offers a bold future for manufacturing new technologies in Central Florida. Since it launched in 2014, this public-private consortium — formerly known as the International Consortium for Advanced Manufacturing Research — is “bridging the innovation development gap” between advanced research at Florida’s universities or industry innovators and cost-competitive manufacturing of new products tied to connected devices and the Internet of Things. BRIDG is led by UCF, Osceola County and the Florida High Tech Corridor Council, and offers partners and others the opportunity to share equipment and conduct research needed to profitably access the next-generation sensor economy.

DIRECTCONNECT TO UCF

In 2015, DirectConnect to UCF celebrated 10 years of helping students gain access to higher education and transform their lives. The program guarantees students’ admission to UCF with an associate degree from one of the university’s six partner colleges, providing students with admission assistance and advising tailored to the transfer experience.

More than 41,000 students have enrolled at UCF through the program, and about 71 percent of DirectConnect students have gone on to graduate within six years. The program is nationally recognized for creating a seamless pipeline of social mobility through access to higher education. Media outlets have suggested DirectConnect to UCF is a blueprint for other communities to following. Among those praising the program are *POLITICO Magazine*, PBS NewsHour and *The Washington Post*.

Additionally, DirectConnect to UCF was featured in a 2015 Ithaka S+R case study on “breaking the iron triangle” of cost, quality and access, by extending its internal instructional capacity and partnering with other institutions to have greater impact.

Other recent DirectConnect to UCF accomplishments include:

- Adding College of Central Florida and Daytona State College as partner institutions
- Developing the Central Florida Higher Education Consortium Regional Operational Plan, which outlines the consortium’s degree review and approval process
- Receiving the Gold Standard Award from the National Association of Student Personnel Administrators

Learn more at directconnect.ucf.edu.

Transfer students now make up more than 50 percent of our student population, and UCF recently topped *U.S. News & World Report’s* list of colleges that attract the most transfer students.

DIGITAL LEARNING

UCF is a national leader for its innovation in digital learning, offering its first online courses to about 650 students in 1996. Today, the university offers more than a half a million credit hours online and experiences about 2 percent annual growth in its online credit hours — while face-to-face courses decline at about the same rate. UCF students are digital — not distance — learners, supported by a team of award-winning instructional designers and highly trained faculty.

80 PERCENT
OF STUDENTS TAKE AT LEAST ONE CLASS ONLINE

UCF Online

UCF Online launched in 2016, providing students access to more than 80 high-quality fully online degrees and certificates taught by the same expert faculty as on-campus classes. The program nearly doubled enrollment expectations in its first year with 1,680 students. While the online programs are accessible nationally, about half of those enrolled live in Central Florida. UCF is developing enhanced partnerships with state college partners to provide a seamless transition from associate degree to a four-year or advanced UCF degree online.

Learn more at ucf.edu/online.

Adaptive Learning

Adaptive learning leverages technology to provide students an individualized learning experience, individualized content and individualized assessment.

In 2015, UCF launched 10 adaptive learning pilot courses in undergraduate nursing, algebra and psychology, and graduate statistics and advanced nursing practice. Students in these courses say adaptive learning helped them learn better and engage more, and that they would take additional adaptive learning courses.

UCF DOWNTOWN

A 21ST-CENTURY CITY NEEDS A
21ST-CENTURY CAMPUS.
A PLACE WHERE NEW IDEAS
CAN FLOURISH FROM A
FOUNDATION THAT'S BUILT ON
INNOVATION AND WILL
TRANSFORM LIVES.

LET'S BUILD OUR FUTURE TOGETHER.

In May 2016, UCF celebrated the groundbreaking of its downtown campus expected to serve 7,700 students when it opens in 2019. Just minutes away from City Hall, the Central Business District and a new Sports and Entertainment District, the campus will provide students a unique learning environment within walking distance of internship and job opportunities in fields such as communication, digital media, social work, legal studies, healthcare information technology and healthcare management. Sharing the campus with Valencia College means a seamless pathway for students to earn bachelor's or advanced degrees, as well as providing workforce training and other certificates to increase access to education in the immediate downtown area. UCF Downtown will anchor the city's \$1 billion public-private Creative Village development west of Interstate 4, and has already received more than \$20 million in community support.

“UCF Downtown will lift lives and livelihoods through access, innovation and impact.”
— A. Dale Whittaker, Provost and Executive Vice President.

UCF GLOBAL

In 2016, UCF Global moved into its new home — a \$16 million, 54,000-square-foot building serving as the international hub on campus for students, faculty and staff. UCF Global is committed to increasing international mobility and enhancing UCF’s global competency. It encompasses the English Language Institute, UCF Abroad and multiple support services for the university’s international population.

Learn more at global.ucf.edu.

FLORIDA CONSORTIUM
OF METROPOLITAN RESEARCH UNIVERSITIES

As a partnership launched in 2014 with UCF, Florida International University and the University of South Florida, the consortium is committed to producing more career-ready graduates with lower debt, better training and adaptable skill sets. Its 2020 goals include improving the six-year graduate rate of minority students, increasing the number of baccalaureate degrees by 12 percent, increasing the number of graduates employed in Florida by three percent and increasing graduates’ starting salaries by 10 percent.

Philanthropic Partners

Learn more at floridaconsortium.com.

COLLEGE OF MEDICINE

In 2016, the UCF College of Medicine selected Hospital Corporation of America, the nation’s largest hospital company, as its partner to build the UCF Lake Nona Medical Center focused on providing healthcare services to the community as well as education and research. The medical center will help the College of Medicine increase residencies and clinically based research, and ultimately help build Medical City into more of a health care destination providing first-class health care.

Additionally, the UCF College of Medicine celebrated its “best match day” yet this year, securing 100 percent residency match rate for its 114 senior medical students. The College of Medicine celebrated its 10th anniversary this year, and was awarded the Innovation Award for Health Care Provider Training and Education from the Clinton Foundation this spring.

CONTINUING CARE RETIREMENT COMMUNITY

CCRC Development Corporation and UCF are working to develop a Continuing Care Retirement Community to provide high-quality health care for seniors in the Central Florida area. UCF will be involved in research, teaching, student internships and service processes at the facility, contributing to our community’s lifelong well-being.

IQ ORLANDO

IQ Orlando is a partnership among AHG Group, Florida Hospital, Tavistock Group and UCF to form collaborations with companies that have the infrastructure, resources and commitment needed to develop actionable solutions for creative aging, in both health and healing. The group involves two innovative communities in Central Florida to serve as “living laboratories” for rapid development and testing of solutions.

COLLECTIVE IMPACT

In Fall 2015, university and community leaders launched a strategic planning process to set UCF’s trajectory for the next 20 years. Doing so will shape how UCF can have the greatest impact on lives and livelihoods across the region and beyond.

The planning process and resulting plan were aptly named “Collective Impact” because they involved more than 800 internal and external stakeholders, including business leaders, public officials, educators and alumni, as well as UCF faculty, staff and students — all working together to answer the question, “Who does UCF aspire to be?”

SCALE
X
EXCELLENCE
=
IMPACT

OUR IMPACT

We use the power of scale and the pursuit of excellence to solve tomorrow’s greatest challenges and to make a better future for our students and society. Through learning, discovery and partnerships, we transform lives and livelihoods.

OUR PROMISE

- Harness the power of scale** to transform lives and livelihoods.
- Attract and cultivate exceptional and diverse faculty, students and staff** whose collective contributions strengthen us.
- Deploy our distinctive assets** to solve society’s greatest challenges.
- Create partnerships at every level** that amplify our academic, economic, social and cultural impact and reputation.
- Innovate academic, operational and financial models** to transform higher education.

INSTITUTIONALIZATION

Since plan approval in May 2016, efforts are underway to institutionalize the Collective Impact Strategic Plan into the fabric of UCF. Driven by shared ownership and collective action, this involves aligning the plan with strategies at every level of the institution and celebrating innovation and actions that help meet Collective Impact goals.

Challenge 2020

College deans’ dashboards include academic and operational program data and track metrics toward college- or unit-level Collective Impact metrics.

College Visits

Provost half-day visits to the colleges provide opportunities for discussion about Collective Impact goals and colleges’ showcasing their students, faculty, staff, programs and facilities.

Provost Forums

Events open to the entire university community focusing on Collective Impact areas, such as faculty excellence and prominence, student success, research and graduate education and funding and philanthropy.

Provost Retreats

Leadership retreats on strategic areas, including research and partnerships, graduate and undergraduate education, global education, digital learning and faculty excellence.

PRIORITY METRICS AND PROGRESS

Collective Impact outlines deliberate metrics accompanied by bold strategies to achieve UCF’s promises.

UNIVERSITY RANKINGS

UCF is gaining national reputation for its undergraduate and graduate education, access mission and innovation in higher education. Since 2014, UCF increased its ranking from 99th to 93rd in *U.S. News & World Report’s* “Best Public Universities” and landed 22 graduate programs in the “Best Graduate Schools of 2018” top 100.
