MARCHIOLI COLLECTIVE IMPACT

AWARD GUIDELINES
Priority Metrics & Strategies
At UCF, we believe in a community of thinkers who push boundaries to shift paradigms and solve big problems. We also know that none of us is smarter than all of us.

That’s why in Spring 2017 we launched an award to recognize and celebrate innovations from across the university that are helping us reach many of the goals laid out in the Collective Impact Strategic Plan.

Based on the idea that BIGGER IS BETTER, we are challenging long-held assumptions about the role and scope of higher education. And, we want to motivate others to develop and test ideas that drive further innovation at UCF.

Named after UCF Foundation Board Chair Nelson Marchioli ’72, this award aims to seek out big ideas that will bend our future.
HOW TO ENTER

This award will provide a $5,000 award (cash or grant)* each fall and spring semester over the next three years to a faculty or staff member who has developed and is implementing an innovative program, initiative or project that’s helping UCF achieve the priority metrics from the strategic plan.

This award was created to recognize and celebrate individual or small team contributions already underway that are demonstrating success.

*Awards will be provided as cash to non-unit faculty or staff members, or as grants to in-unit faculty members that may be used to fund travel, teaching or research.

MARCHIOLI COLLECTIVE IMPACT INNOVATION AWARD CRITERIA

Through the contributions of each of us at UCF – and in working with our partners – we will fulfill the promises outlined in the strategic plan. All nominees for this award must be full-time UCF faculty or staff members who meet at least one of the following criteria:

• An individual who has developed his or her own innovation by converting ideas from general concepts into novel initiatives, projects or programs that are producing measured outcomes related to one or more priority metric.
• An individual who has led a team that has advanced innovation by converting ideas from general concepts into novel initiatives, projects or programs that are producing measured outcomes related to one or more priority metric.

To be considered, the innovative initiative, project or program must be able to be scaled for greater impact.

NOMINATION FORM AND SELECTION PROCESS

Nomination form and directions are available in these guidelines and on the UCF Collective Impact Strategic Planning website at www.ucf.edu/strategic-planning.

• Unit leaders must nominate individuals (or a team) in your division, unit, college or department whose innovative work toward one or more priority metric meets the above criteria.
• Self nominations and nominations from colleagues will not be accepted.
• A university-level selection committee will select an award recipient each fall and spring semester through Fall 2019. If a team is selected as the winner, the team leader will receive the award.
• Award presentations will be made during Provost Forums or other events sponsored by the Provost.

Note: Faculty and staff working in the Office of the Provost are not eligible for the award.

Disclaimer: An idea that is submitted to the competition becomes the sole property of UCF and may be used by the university in any way that will advance UCF. However, UCF will not assert its ownership rights over ideas developed for the intended purpose of disseminating the results of academic research or scholarly activities such as books, articles, presentations, or electronic and digital media, which have been used or will be used to secure grant funding, provided that any external funding does not infringe upon the university’s right to use the idea. All cash awards are treated as income and subject to normal withholding tax.
MARCHIOLI COLLECTIVE IMPACT INNOVATION AWARD

Nomination Form

Name of Nominator: .............................................................. Title of Nominator: ..............................................................

NOMINEE INFORMATION

Name: .............................................................. Rank/Title: ..............................................................

Work Phone: .............................................................. Department/Division: .............................................................. Years at UCF: ..............................................................

INNOVATION

Please provide requested information as instructed.

A. Select priority metric being addressed.

B. Describe in 500 words or less the innovative initiative, project, program, or activity.

C. Describe in 500 words or less the outcomes and impact achieved toward the priority metric.

D. Briefly list any other awards or recognition received for this innovation.

SUPPORTING AND ADDITIONAL MATERIALS

Please send these materials in an email with this nomination form.

A. Nominee's vitae. (Optional)

B. Supporting Materials. A maximum of three pages of supporting documentation or work examples can be attached. These materials should provide evidence of the impact of the innovation. Additional supporting materials will not be reviewed. (Optional)

SIGNATURE

Print Name of Nominator/Unit Leader .............................................................. Signature of Nominator/Unit Leader .............................................................. Email Address ..............................................................

Submit this nomination form and any optional materials to Lisa Jones at lisa.jones@ucf.edu by 5 p.m. Friday, Oct. 27, 2017.

Questions? Contact Dr. Lisa Guion Jones at lisa.jones@ucf.edu.

Note: Self-nominations and nominations from colleagues will not be reviewed.
WHO WE ASPIRE TO BE

In the fall of 2015, university and community leaders launched a strategic planning process to set UCF’s trajectory for the next 20 years. In doing so, we set out to shape how we can have a greater impact on lives and livelihoods at UCF, throughout the region, and beyond.

Our planning process, aptly named Collective Impact because it involves not only internal stakeholders but also members from the community, has included over 800 people from across Central Florida—community members, business leaders, public officials, educators, alumni, as well as UCF faculty, staff, and students—all working together to help answer the question, “Who does UCF aspire to be?”

Along the way, we have considered the strong foundation of our past as we look toward our future. The UCF Board of Trustees and President John C. Hitt charged the Strategic Planning Commission with delivering a road map that defines a 20-year vision and a five-year action plan. To do so, they asked the commission to explore UCF’s role in the community and around the world through the three dimensions of Philosophy, Value, and Distinctive Impact.

Taken together, these dimensions have considered our purpose, the value offered by our institution, and areas of excellence that distinguish UCF from other institutions on the national and international stage. We also have examined how UCF should define its role within the educational landscape in the state and across the country.

COMMISSION DIMENSIONS

The Strategic Planning Commission dimensions were created in collaboration with several members of the UCF Board of Trustees and the UCF President and Provost’s offices. They include:

**Philosophy**—A fundamental understanding of an institution’s purpose that guides its decision-making. A philosophy is informed by the past—by an institution’s self-identity and its role within the community—but it is not constrained by it. Philosophy establishes culture and shapes people and products; it states what we collectively believe, what we value, and who we are. Examples of this dimension in action could include the university’s five goals or UCF’s academic mission devoted to access and student success.

**Value**—A ratio of quality to cost. Higher education institutions can reflect value by optimizing delivery of services across units, innovating ways to increase quality while reducing cost, and partnering with others as appropriate to collectively advance the institution’s mission and further its comparative advantage. Universities that provide high value clearly define quality, diligently constrain unnecessary costs, and ensure that expenses advance value and will meet demand. In order to achieve this, UCF must foster a cost containment culture. Examples of this dimension in action could include UCF’s relatively low dollar per degree ratio and its growing distance-learning programs.

**Distinctive Impact**—Areas of excellence and impact that distinguish UCF from other institutions at the international and national level, while simultaneously advancing the local environment. These areas of distinction arise from unique, place-based attributes, a critical mass of scholars, a cluster of partners who collectively create impact, and historic strengths of the institution. Examples of this dimension in action could include national and international prowess in the areas of modeling, simulation, and training; the establishment of an advanced manufacturing research center devoted to smart sensors; and national models for hospitality and tourism.

A NEW WAVE IN HIGHER EDUCATION

As American higher education’s purpose in our nation has evolved from elite colonial schools to land grant institutions to research-intensive economic drivers, we are entering a new phase—dubbed “Wave 5” by Arizona State University President Michael Crow—that focuses on a combination of innovation and scale to meet society’s growing demands.

With our emphasis on access and our capacity as one of the nation’s largest public universities, UCF has the
potential to lead a new wave in higher education, one that we have built up over the years of providing pathways to education through partnership such as our 2+2 DirectConnect to UCF program with six Florida State College institutions, or our growing online education offerings.

It is because of these scalable innovations that Ithaka S+R in 2015 claimed we had broken the so-called Iron Triangle “by reducing cost, improving quality, and enhancing access simultaneously.”

Like our peer innovators at ASU and other members of the University Innovation Alliance, UCF chooses to be known for whom it includes, rather than whom it excludes.

SCALE AND EXCELLENCE

It is these values that have guided us to this point and that help us embark on the next 20 years. While other universities can claim to provide high-quality, intimate education at high costs, or convenient distance education without access to student support services, UCF chooses to be an institution that proves big can be good, and even better. And it is this combination of attributes that allows us to have the largest impact on our students and the community we serve. As this plan took shape, we began to express this relationship as:

\[
\text{Scale} \times \text{Excellence} = \text{Impact}
\]

With this framework, we believe that we can harness the strength of our size—our resources, our student body, our technology, our educational pathways, and more—with a constant pursuit of excellence that is manifested in record SAT and GPAs for our incoming freshman class, record numbers of international scholars, nationally ranked academic programs, and cutting-edge research. Taken together as “scale x excellence,” the result of this multiplier is “impact” across our community, nation, and the world.

Whether it is tens of thousands of community service hours or interdisciplinary teams of faculty members working through our greatest scientific and societal challenges, UCF believes that using scale and excellence will leave the greatest mark on students and society.

OUR IMPACT

We use the power of scale and the pursuit of excellence to solve tomorrow’s greatest challenges and to make a better future for our students and society. Through learning, discovery, and partnerships, we transform lives and livelihoods.

OUR PROMISE

Harness the power of scale to transform lives and livelihoods.

Attract and cultivate exceptional and diverse faculty, students, and staff whose collective contributions strengthen us.

Deploy our distinctive assets to solve society’s greatest challenges.

Create partnerships at every level that amplify our academic, economic, social, and cultural impact and reputation.

Innovate academic, operational, and financial models to transform higher education.
OUR CHARGE

UCF will become the recognized leader among 21st century universities whose transformational impact is measured by these five- and twenty-year objectives:

→ **Lead** large Florida metropolitan areas in percentage of bachelor’s degree attainment, reaching top quartile nationally by 2035

→ **Double** national and international recognition of faculty and student excellence, and quadruple recognition by 2035

→ **Double** research awards, becoming a top 50 research university by 2035

→ Generate **$10 billion** in economic, social, and cultural impact, growing to **$25 billion** by 2035

→ Attract **$100 million** in new funding from sources other than students, families, and taxpayers, becoming 20% of total educational funding by 2035
UCF’s Collective Impact Strategic Plan includes metrics and strategies to help reach our five Promises, impacting our entire university – and our community. While the full plan approved by the university’s Board of Trustees in May 2016 offers more than 70 metrics to measure our success, this document pulls out those metrics that have been deemed priority by our Collective Impact Strategic Plan institutionalization committees.

These priority metrics, and affiliated strategies, are the metrics that we intend to focus on during the first institutionalization and implementation phases of our plan. If you are entering the Marchioli Collective Impact Innovation Award, you can use this listing of priority metrics and strategies to help guide your thinking around which areas to submit the best ideas.

### PRIORITY METRICS AND STRATEGIES

**Increasing Student Access, Success, and Prominence**

**Priority Metrics**

- Lead large Florida metropolitan areas in the percentage of the population with a bachelor's degree
- Achieve Top 5 ranking among Orlando Economic Partnership peer regions of the percentage of population with a bachelor's degree or higher
- Enroll a student population whose family incomes reflect the distribution of the region
- First-year retention of 92%
- Six-year graduation rate of 75%
- Average GPA of 4.0 and SAT of 1870 for incoming fall freshmen
- Top 10 ranking among public universities for the number of National Merit Scholars
- Enroll a student population that reflects the demographic distribution of the region
- Transfer student graduation rate of 75%

**Strategies**

- Develop and implement a comprehensive strategy with our DirectConnect partners and public school systems to achieve regional metrics, including both total degree attainment and demographic and socioeconomic composition of graduates
- Develop strategies with Orlando Economic Partnership and the broader business and employer community that increase bachelor's and graduate degree attainment in fields aligned with current and future industry growth in the region
- Develop partnerships with regional public school systems and DirectConnect institutions to provide effective pathways for economically and demographically diverse, and most at-risk populations
- Develop a university-wide strategy to leverage the experience and resources offered by our size to ensure a high-quality, individualized student experience within a large institution and maximize the use of technology to support and enhance it
- In collaboration with our college partners, implement the strategies defined in Foundations of Excellence to support the success of our transfer students
- Develop an innovative undergraduate recruitment plan that achieves the incoming student metrics
- Develop a student development and support strategy to achieve the recognition and prestigious national awards metrics
- With our regional education partners, identify targeted professions and develop a deliberate strategy to enhance the diversity of our graduates who pursue careers in those fields
- Enhance or refine student support programs using evidence-based practices and information from student assessment surveys
### Strengthening Our Faculty and Staff
