# TECHNOLOGY DOESN'T TRANSFORM ORGANIZATIONS - LEADERS DO

In an era of accelerating innovation, true competitive advantage isn't the technology itself, it's how you govern it, design around it and empower your people through it. Welcome to University of Central Florida Executive Education.

Offered through the School of Technology Leadership and Innovation, our Executive Education programs transform the leadership teams into architects of the future. We merge evidence-based insights from over 200 research disciplines with practical, customized capability-building. The result is more than just education; it is an integrated partnership designed to help you navigate disruption and lead with purpose.

## CRITICAL CHALLENGES WE ADDRESS

Bridging the gap between technological potential and organizational performance.

- **Leading in Age of AI:** We empower leaders to drive enterprise-wide performance through data-driven change management. Our programs convert AI and other capabilities into tangible ROI by fostering the cross-functional collaboration, change management and strategic communication required for high-stakes transformation.
- **Strategy, Governance & Scale:** We help you adopt and scale AI and other technologies by aligning innovation with business cases and data readiness. Learn to drive measurable value while navigating the complex landscape of policy, vendor and regulatory risks.
- **Managing Human-AI Teams:** We equip managers to lead where people and technology intersect. Our curriculum focuses on shifting decision rights, building trust in automated systems and strengthening the human capabilities essential for effective hybrid management.

## YOUR PATHWAY TO TRANSFORMATION

Tailored learning architecture designed for every level of leadership.

- **Focused Executive Education:** Translate strategic priorities into action. Combining world-class faculty with deep technical expertise, these custom programs help your senior team sharpen operational performance and lead large-scale change.
- **Tailored Competency Training:** Bridge critical capability gaps through flexible in-person, online, or hybrid modules. From hands-on capstones to scalable self-guided learning, we deliver proven, competency-based growth for managers and emerging leaders.
- **High-Impact Technical Workshops:** Accelerate specific skills, such as industrial simulation, 3D environments and space commercialization, through modular, intensive sessions designed for immediate workplace application.

## LOOKING AHEAD

**A Partnership for Growth:** UCF Executive Education can be the catalyst for your organization's broader evolution. Our collaborative model extends beyond the classroom to include applied research, workforce upskilling and talent pipeline development. Let's take advantage of our momentum. Partner with us to build an engine that sustains your competitive edge.

# SIEMENS ENERGY

## SIMENS ENERGY GAINS FRESH LEADERSHIP PERSPECTIVES

As a UCF Pegasus Partner, Siemens Energy recently partnered with the School of Technology Leadership and Innovation for an exclusive Executive Education workshop. Focusing on operational agility and digital supply chain transformation, the sessions aimed to equip leaders with tools to navigate rapid industry changes.

This collaboration underscores Siemens' commitment to talent development, shared research, and driving innovation with UCF.

# Addition<sup>™</sup> FINANCIAL

## ADDITON FINANCIAL PARTNERS TO DRIVE INNOVATION AND STRATEGIC GROWTH

UCF faculty from the School of Technology Leadership and Innovation empowered Additional Financial senior leaders through a custom two-day Executive Education workshop designed to navigate organizational change.

Through hands-on simulations and faculty-led sessions, the Lake Mary-based credit union and Pegasus Partner developed actionable strategies focusing on accountability, collaboration, systems thinking, and an entrepreneurial mindset.

# MITSUBISHI POWER

To drive leadership excellence, Mitsubishi Power Americas has engaged UCF's Management Development Certification Program across several cohorts. The curriculum focuses on high-impact management capabilities, utilizing case-study analysis and competency assessments. This collaborative approach ensures that leaders emerge with practical, tested skills ready for immediate application.

## PREPARE TO LAUNCH

At UCF, we harness the power of people and ideas through dynamic collaborations with industry, community and public sector organizations. Our Partnerships team serves as the “front door” to the university, acting as a corporate concierge to connect businesses with curated experts and departments across campus.

As a leader in engineering, optics, modeling & simulation, hospitality, healthcare and game design, we forge strategic partnerships that advance experiential learning, drive innovative research and deliver mutually beneficial outcomes.

## FIVE AREAS OF FOCUS

As Florida’s premier engineering and technology university, we are actively investing in what we were founded to do and what we do best. UCF draws on the strength of interdisciplinary teams from 13 distinct colleges to work together to solve societal challenges and develop the next generation of solutions.

**SPACE TECHNOLOGIES AND SYSTEMS**

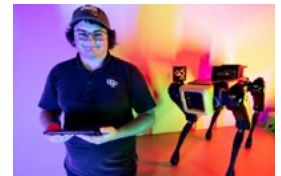

**IMMERSIVE EXPERIENCES**

**HEALTH AND HUMAN PERFORMANCE**

**ENERGY AND SUSTAINABILITY**

**TRANSFORMATIVE TECHNOLOGIES AND NATIONAL SECURITY**

As your strategic partner, we bridge the gap between academic insight and market leadership. Through experiential learning and innovative research, we do more than provide resources—we accelerate your commercial trajectory to drive measurable growth.
